

The LRS Systems course content library allows us to quickly and effectively develop and customize courses for our court partners on almost any relevant topic. Below are some of our already existing courses and content materials. We are constantly adding material to our content library on these and other topics (often in areas that were brought to our attention by the courts we work with).

### **LRS Course Content Library**

**Traffic School-** 5 hour internet course on Traffic Safety

(Designed for low-level and first time traffic safety offenders. Can be customized to meet specific state and DMV requirements as needed.)

(Teen driving education course. It covers all of the topics of a regular traffic safety course with added details, suggestions and examples for beginning drivers.)

**Anger Management (Impulse Control)-** 6 to 8 hour internet course

(This course is designed for those charged with any type of assault or other similar crime and is based on choice theory. It teaches how to use choices to better handle situations including techniques on how to calm down oneself and others and to avoid unnecessary conflict.)

**Petit Larceny-** 6 to 8 hour internet course

(This course is designed for those charged with petit larceny and is based on choice theory. It seeks to help the client address the choices they make and give them a greater understanding of the personal and social costs of theft. It works to help them look at specific examples of how they can change their behaviors to gain more positive results.)

**STD/AIDS Awareness-** 6 to 8 hour internet course

(This course is designed for those charged with prostitution or soliciting prostitution and is based on choice theory. It seeks to help the client address the choices they make and give them increased knowledge about the negatives and dangers of prostitution.)

**Alcohol & Other Drugs-** 6 to 8 hour internet course

(This course is designed for those charged with any drug or alcohol based crimes, and is sometimes used in conjunction with other classes. It is based on choice theory, and seeks to help clients address the choices they make and how they can make better choices to find better outcomes. Clients learn about stages and consequences of addiction.)

**Drug Impact Program-** 1½ hour internet course on how drug's impact your life and those around you. Consists of stories told by family members and friends and former drug abusers about how drug use impacted them.

(This is a video panel class designed for those charged with drug based crimes and often ordered in conjunction with a drug and alcohol education course or other treatment. It seeks to help the offenders see outside of themselves and acknowledge how their actions are impacting others.)

**Victim Impact Program-** 1½ hour internet course showing how DUI incidents negatively impact the lives of victims and perpetrators.

(This is a video based class that seeks to help DUI offenders see how their actions impact the lives of others and what the true cost of a DUI can be for the community, the offender, the victim and the family and loved ones of both. This message is shared in a panel format consisting of different people sharing real stories of how DUI's impacted their lives.)

**Domestic Violence-** 26 week course for Domestic Violence offenders.

(Course material is approved in Nevada as a live course, but where appropriate can be used online.)
